BrightPath Tech: Response to RFP No. KML/HR/2026/014 - HR Service Delivery Platform

Submitted to Kestrel Manufacturing Ltd (fictional) | Submission date: 2026-10-03 | Fictional proposal for classroom use

1. Executive Summary

BrightPath Tech is pleased to offer **BrightDesk HR**, a modern and affordable HR helpdesk and employee portal. We can get Kestrel live in just **10 weeks** at the lowest total cost in the market.

As a young and agile company founded in 2023, we bring energy, flexibility and a startup mindset.

2. Understanding of Requirements

We understand that Kestrel needs an employee portal, case management and a knowledge base for its employees, with connection to its HR system and login.

3. Proposed Solution

BrightDesk HR is a single multi-tenant SaaS application. Employees can raise tickets through the portal, email or a chatbot, and HR agents manage them in a shared queue with SLA timers.

- Ready-made templates for common HR queries (payslips, leave, letters).
- Knowledge base with article search.
- Integration with HR systems through CSV file upload, with an API connector planned for 2027.
- Login with Google or Microsoft accounts.
- Mobile-friendly web interface.

4. Implementation Plan

Our rapid deployment method gets customers live in 10 weeks:

Weeks	Activity
1-2	Kick-off and configuration workshops
3-7	Configuration and data upload
8-9	Testing and training
10	Go-live

A project manager and two consultants will be assigned. Testing will be done by Kestrel's HR team.

5. Pricing

Item	Cost (INR)
Annual subscription (per year, up to 7,000 employees)	29,00,000
One-time implementation	14,00,000
3-year total	**1,01,00,000**

Support is included in the subscription. Prices exclude taxes. Additional customisation will be quoted separately on a time-and-materials basis at INR 4,500 per hour.

6. Security

Security is very important to us. BrightDesk is hosted on a leading public cloud and we follow industry best practices to keep customer data safe. Data is encrypted. We are currently working towards ISO certification. Further details on security can be shared after contract signing.

7. Support and Experience

Our support team is available on email from 10am to 6pm, Monday to Friday. We currently serve 3 customers in the services sector, the largest with 900 employees. References are not available at this stage due to confidentiality agreements.
