RFQ at a glance

RFP title: Corporate Fleet Lease - 40 vehicles for 48 months (RFQ No. MHC/ADM/2026/022)

Issued by: Meridian Healthcare Pvt Ltd (fictional)

Industry: Healthcare - corporate vehicle leasing

Summary: Meridian needs 30 compact sedans for its field medical representatives and 10 light utility vans for sample logistics, on a 48-month operating lease with maintenance, across Bengaluru, Chennai and Hyderabad.

1. Key requirements

R1. 30 compact sedans and 10 light utility vans, delivered within 8 weeks of the purchase order.

R2. Full-maintenance operating lease for 48 months, 20,000 km per vehicle per year.

R3. Service and breakdown support in Bengaluru, Chennai and Hyderabad, including replacement vehicles.

R4. Vehicles with at least a 4-star Global NCAP or Bharat NCAP safety rating.

R5. At least 25% of the fleet electric or CNG, with charging or fuelling support.

2. Evaluation criteria and weights

C1. Total Cost of Lease (35%): monthly rental, total 48-month cost, excess-km charges and exit terms.

Best practice: all-inclusive monthly rental with insurance and maintenance, clear excess-km rates and no hidden end-of-lease charges.

C2. Vehicle Specification and Safety (25%): models offered, safety ratings, features and fit to R1/R4.

Best practice: 5-star rated models with six airbags, ESC and telematics for driver safety.

C3. Maintenance and Service Network (20%): workshops, response times, replacement vehicles and uptime.

Best practice: own or partner workshops in every city, 4-hour breakdown response and a guaranteed replacement vehicle within 24 hours.

C4. Delivery Timeline (10%): ability to deliver all 40 vehicles within 8 weeks.

Best practice: phased delivery plan with dates, starting within 4 weeks.

C5. Sustainability (10%): EV/CNG share, charging support and emissions reporting.

Best practice: 30%+ EV share, workplace charging installation and quarterly emissions reports.
